Agenda

- Welcome to the Assistive Technology revolution! The world around us is evolving at an astounding rate. Assistive Technology developments have been foundational in this evolution and a catalyst producing positive life-changing results for individuals with disabilities.
- This talk will share information about Tools for Life, Georgia's Assistive Technology Act Program, and how you can access statewide services. We will also explore the AT Solutions Lab at Georgia Tech which includes AT devices that you and those that you serve can try and borrow. Join us as we discuss possible solutions to accessing assistive technology in Georgia for individuals with disabilities so they can be independent whether at school, at home, at work or in the community.

For Handouts: http://www.gatfl.gatech.edu/tflwiki

Accessibility Made Smart

AMAC creates practical solutions that work, with a focus on utility, ease of use, and high quality.

- **Accessibility Consulting** focuses on organizational accessibility needs with evaluation, technical assistance, customer support, and website accessibility solutions.
- **Braille Services** produces customized projects from both print materials and electronic text including partial books and chapters or graphics only using cutting-edge technology.
- **Captioning Services** makes classrooms, meetings, labs and other audio environments fully accessible for deaf or hard-of-hearing.
- **Professional E-Text Producers** provide high-quality e-text in many formats such as PDF, DOC, DAISY, and HTML.
- **Certified Assistive Technology team** provides on-site and remote assessments, demonstrations, training and technical assistance for education, work, and daily living environments.

For more information, please visit our website at www.amacusg.org

Tools for Life Mission

We’re here to help Georgians with disabilities gain access to and acquisition of assistive technology devices and assistive technology services so they can live, learn, work, and play independently in the communities of their choice.

WHAT IS ASSISTIVE TECHNOLOGY?
Assistive Technology (AT) is any item or piece of equipment that is used to increase, maintain or improve the functional capabilities of individuals with disabilities in all aspects of life, including at school, at work, at home and in the community. Assistive Technology ranges on a continuum from low tech to high tech devices or equipment.
Tools for Life works to improve access to and the acquisition of assistive technology in the areas of: Education, Employment, Community Living, IT & Telecommunications.
WHO USES AT?
Anyone with a disability that wants assistance to accomplish tasks.
OUR MISSION
Tools for Life increases access to and acquisition of assistive technology devices and assistive technology services for Georgians of all ages and disabilities so they can live, learn, work, and play independently in the communities of their choice.
AMAC Accessibility Solutions
A program of AMAC Accessibility at Georgia Tech
"Disability is a natural part of the human experience and in no way diminishes the right of individuals to live independently, enjoy self-determination and make choices, benefit from an education, pursue meaningful careers and enjoy full inclusion and integration in the economic, political, social, cultural, and educational mainstream of society in the United States."
Public Law 108-364

Georgia Tech TOOLS for LIFE
Georgia's Assistive Technology Act Program

Get a Financial Loan to purchase AT

The CFII - The Center for Financial Independence & Innovation, Inc. (The CFII) is a nonprofit organization dedicated to helping individuals with disabilities and their family members advance their financial independence and security.

Obtain AT through our AT Cooperative Buying Program

The Georgia AT Depot is a state-wide buying Cooperative for Assistive Technology for customers in the state of Georgia. The Georgia AT Depot is modeled after the Maryland AT Co-op, which has operated a successful cooperative buying program since 1998. The Georgia AT Depot is a collaborating partner with the Maryland Co-op. In this way we can provide Georgia customers the best discounts possible.

Obtain Reused/Gently Used AT Devices

gTRADE, Georgia's Online Equipment Exchange, encourages members to offer AT and DME for sale or donation to others who may benefit from using technology unneeded by others.

FODAC - Friends of Disabled Adults and Children (FODAC) is Georgia's statewide provider of home health and durable medical equipment. FODAC has distributed 20,000 wheelchairs and thousands of other pieces of DME since 1986. Internationally, 65 countries have received some equipment over those years.

Frequently Asked Questions (FAQs)

1. How can I get funding to pay for home modifications?
There are a variety of different funding opportunities for home modifications. Listed below are a few:

- Georgia Dream Homeownership Program
- Credit-Able – Georgia's Alternative Loan Program for Georgian's with disabilities
- Social Security PASS Plan, allows for individuals to save money for a specific purchase
- 211- United Way telephone number to find human service answers
- Aldergate, homes for developmental disabilities
- Brain and Spinal Cord Trust Fund
- Joni Foundation
- USDA Rural Development Section 502 Rural Housing Loan Guarantee-The purpose of this loan program is to enable eligible low- and moderate-income rural residents to acquire modestly priced housing for their own use as a primary residence. The program is available for the purchase and repair of existing and newly constructed dwelling. There is no required down payment, but families must be able to afford the mortgage payments, including taxes and insurance. In addition, applicants must be without adequate housing and be unable to obtain credit elsewhere, yet have acceptable credit histories.

VGo Telepresence Robot

- Enables a person to replicate themself in a distant location and have the freedom to move around as if they were physically there
- Reduces travel costs
- School
- Hospital
- Work from home

It was an ad seen by millions watching the Super Bowl. A sick student looking into the computer screen, while his face is projected on a monitor of a white robot — equipped with a camera — wheeling around the school hallways. It was an advertisement for Verizon, and many watching might have assumed that it represented the fanciful idea of what was to come. Few suspected that what they were watching represented the reality of at least one student in West Seneca, New York.

The vOICe and Color Identification

I'm using the vOICe to identify colors. Generally speaking, it does a good job though it's better at giving me color approximations than precise colors. for example, it says that my aqua bedspread, sky blue throw pillow and green blanky are all cyan, and it says a canary yellow box is green or yellow green. I remember colors and the exercise of combining red, yellow, and blue in kindergarten well enough to understand that blue, aqua, and green are all on a continuum and that certain yellows (maybe not canary) can kind of sort of look green in certain lighting, so what the vOICe does makes sense to me.... more »

Seesmic

I have installed seesmic and added my twitter account. Idon't see a way to add any more accounts. I wanted to add my facebook account. Is anyone else usingseesmic? How do you aadd more accounts? Thanks for any help.

List of accessible apps?

Is there a list of apps that are known to be accessible or are themselves accessibility apps? I'm trying to put together a list of things I'll need to download when the time comes. Chris

Apps For The Deaf And Hearing Impaired

Every day the iPhone is helping people live better lives. We have found some amazing apps that are focused on helping those who are deaf or hard of hearing communicate, network, and enjoy entertainment more.

LouderTV

$1.99

by Pieezo Hearsay Pte Ltd

When visiting my grandmother, I was able to hear her TV show before I even reached the front steps. Louder TV is an app designed to make watching TV easier for those with hearing loss. It works as a personal
