

UDesign + Technology Workshop

ATIA CONFERENCE

TIME: 1pm – 5pm.

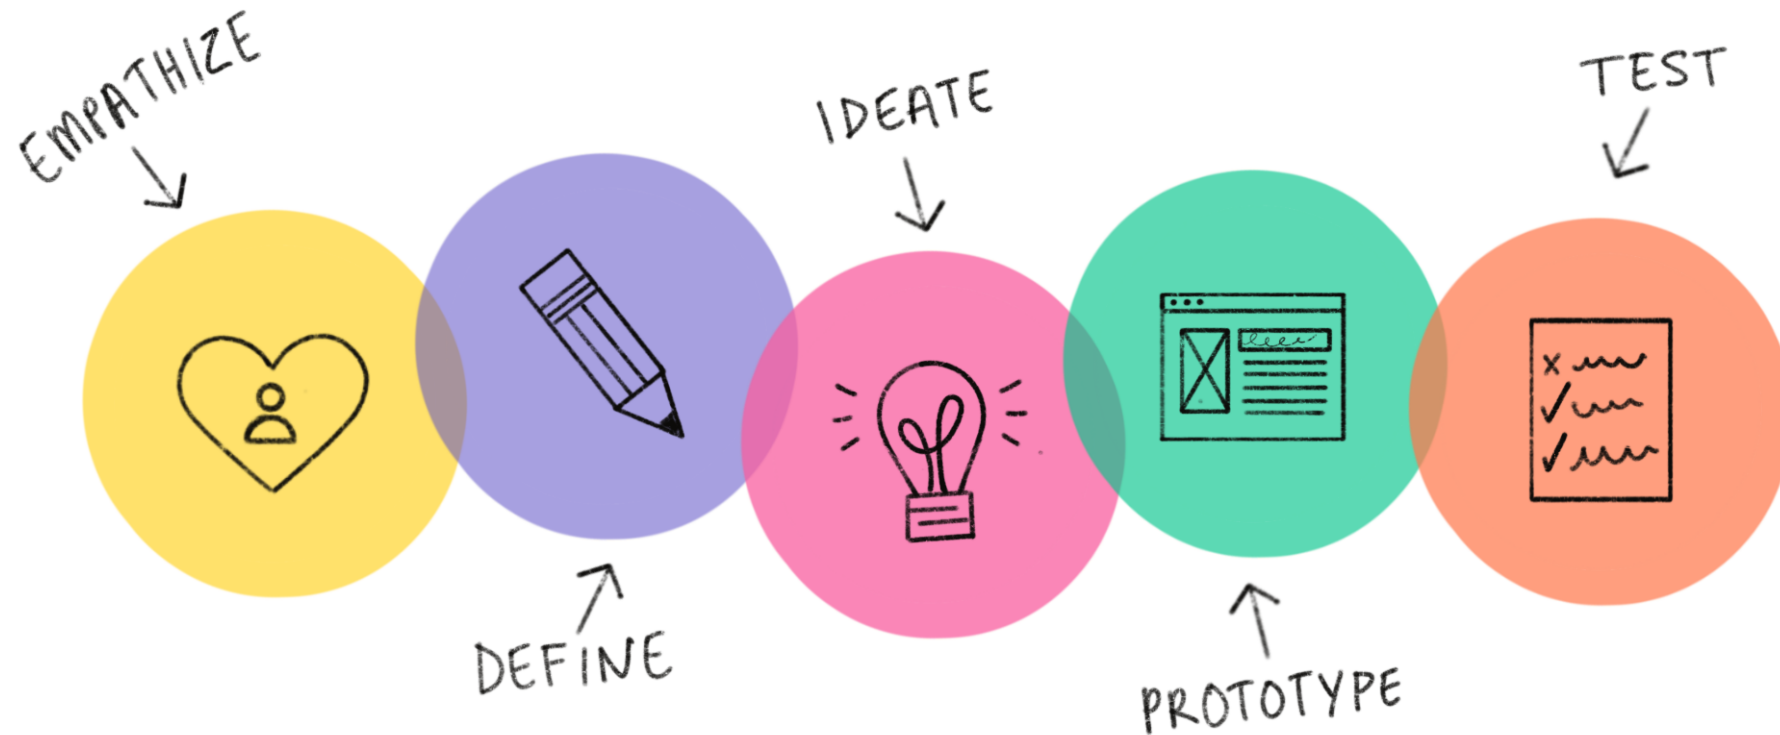

ANTIGUA 2 MEETING ROOM

WELCOME

- Brian Jones, Director of Aware Home.
- Carolyn Phillips, Director of Tools for Life.
- Bryce Johnson, Inclusive Lead for Microsoft devices.
- Nandita Gupta, Graduate Student at Georgia Institute of Technology.

DESIGN THINKING

A large, dark teal ink splatter or blotch serves as the background for the text. The splatter has irregular, organic edges with some lighter, greyish-blue areas where the ink has dried or bled into the white background. The text is centered within the darkest part of the splatter.

LET'S FORM
TEAMS!

BUILDING EMPATHY

EMPATHY ACTIVITY

Take notecards from the table and write down a problem

Swap these cards

Pick up a new card – This is your new card.

Discuss amongst your group and give advice on the problem.

DEFINE THE PROBLEM

SELECT A PROBLEM SPACE

BRAINSTORM DIFFERENT
CHALLENGES

TEAM DISCUSSION – WHO,
WHAT, WHY, WHEN, WHERE?

DEFINE THE USERS

Complete the User Attributes Worksheet to define the different user attributes

For example, if you are creating a desk for students, your users would be students.

Different attributes in this case would be gender, left-handed or right-handed, physical abilities, etc.

A dark teal, irregular ink splatter shape serves as the background for the text. It has a rough, hand-painted appearance with various shades of teal and some lighter areas where the ink has dried or bled. The splatter is centered on a white background.

DESIGN REQUIREMENTS

Minimum requirements that
every solution should include.

**NOW LET'S
IDEATE!**

CONCEPT DESIGN

Brainstorm different ideas that can solve the problem and fit the design requirements.

- i. Combine different ideas
- ii. Build on existing ideas.
- iii. Modify current solutions that exist in the market.

Discuss with the team and choose one solution

CREATE FINAL SKETCH
AND SOLUTION

**PRESENT AND
SHARE YOUR
IDEAS!**
