Welcome to the Assistive Technology Revolution!

The world around us is evolving at an astounding rate. Assistive Technology developments have been foundational in this evolution and a catalyst for producing positive life-changing results for individuals with disabilities.

This session will take a closer look at:

- AMAC | Tools for Life – AT Act Program
 - Advocacy & Knowing Your Rights
 - Making and LD Evaluation Your Action Plan
 - Understanding Assistive Technology
 - Using “Low/Light Tech” to inform “Mid/High Tech Solutions”
 - 5 Trends to Watch
 - where we are and perhaps, where we are going.
- ...all in 60 minutes!

AMAC

AMAC Accessibility is a social change organization on a mission to create affordable services for governmental, private and non-profits organization working with individuals with disabilities. Services include e-text, braille, captioning, assistive technology, office management software and consulting.

Accessibility Made Smart

AMAC creates practical solutions that work, with a focus on utility, ease of use, and high quality.

- **Accessibility Consulting** focuses on organizational accessibility needs with evaluation, technical assistance, customer support, and website accessibility solutions.
- **Braille Services** produces customized projects from both print materials and electronic text including partial books and chapters or graphics only using cutting-edge technology.
- **Captioning Services** makes classrooms, meetings, labs and other audio environments fully accessible for deaf or hard-of-hearing.
- **Professional E-Text Producers** provide high-quality e-text in many formats such as PDF, DOC, DAISY, and HTML.
- **Certified Assistive Technology team** provides on-site and remote assessments, demonstrations, training and technical assistance for education, work, and daily living environments.

Guiding Principles

- **We – Collectively – are Brilliant & Can find an Innovative Path and Create Brighter Futures**
- **We must Think, Live and Act from a place of Abundance – We have enough time, money, resources...**
- **We Must Focus on Abilities!**
- **Assistive Technology is Key to Success.**
- **Success Breeds Success**
- **YOU have the Power to make the Difference!**
 - **Change vs. Progress (Bob Phillips)**

Considering the Lifespan!

- Master Our Skills!
- Expand Our Knowledge and
- Build Stronger Schools to Create an amazing, Inclusive and United Community!

Consider this -

- My Success relied on
 - Assistive Technology!!
 - Try before you buy – Explore!
 - Training
 - Think across environments –
 - Laptop – Still Need!
 - iPhone – I used 13 apps yesterday and today!
 - iPad – use everyday
 - Organization – Learn Your Style
 - efficiency brings peace
 - Evaluations – Hot Button
 - Working from No/Old/Incorrect info
 - Don't trust everything you read & hear
 - Advocate for an AT Evaluation/Assessment

Consider this -

- My Success relies on
 - Failing
 - Dignity of Failure
 - I learned More from My “Failures” sometimes than my “successes”
 - Give yourself room to fail – and Grow from the experience
 - Learn to Laugh...a lot!
 - Be Optimistic...
 - Evaluate & Evolve!

Begin with the End in Mind!

- **Know Your Rights**

- Is your agency or organization, or ones you routinely use, producing accessible ICT?
Website? Forms? Word documents? Manuals?
PowerPoints? Excel forms?
- When you use contractors to develop websites or applications, are you requiring that they comply with WCAG guidelines?
- Be Aware: JAWS users may not see all of the problems on a website. JAWS is intelligent enough to self-correct certain accessibility flaws.

AT Act Moves from Department of Education to Health and Human Services

Moving from Information to Action

Evaluations for Learning Disabilities

- ☐ One to one assessment
- ☐ Comprehensive battery of tests
- ☐ Detailed report with recommendations for support in work and/or learning

- What did You learn in your LD Evaluation?
- Moving from Information to Action
 - Using your Evaluation results as an Action Plan for AT

Moving from Information to an AT Action Plan

Auditory Processing Disorder (APD)

- “Also known as Central Auditory Processing Disorder, this is a condition that adversely affects how sound that travels unimpeded through the ear is processed or interpreted by the brain. Individuals with **APD do not recognize subtle differences between sounds in words, even when the sounds are loud and clear enough to be heard.** They can also find it difficult to tell where sounds are coming from, to make sense of the order of sounds, or to block out competing background noises.”
- What does this information tell us regarding our AT Action Plan?

Moving from Information to an AT Action Plan

Dyscalculia

- “A specific learning disability that affects a person’s ability to understand numbers and learn math facts.
- Individuals with this type of LD may also have:
 - poor comprehension of math symbols,
 - may struggle with memorizing and organizing numbers,
 - have difficulty telling time, or
 - have trouble with counting.”
- What does this information tell us regarding our AT Action Plan?

<http://ldaamerica.org/types-of-learning-disabilities/>

Moving from Information to an AT Action Plan

Dysgraphia

- “A specific learning disability that affects a person’s handwriting ability and fine motor skills.
- Problems may include illegible:
 - handwriting,
 - inconsistent spacing,
 - poor spatial planning on paper,
 - poor spelling, and
 - difficulty composing writing as well as thinking and writing at the same time.”
- What does this information tell us regarding our AT Action Plan?
<http://ldaamerica.org/types-of-learning-disabilities/>

Moving from Information to an AT Action Plan

Dyslexia

- A specific learning disability that affects reading and related language-based processing skills. Dyslexia is sometimes referred to as a Language-Based Learning Disability.
- The severity can differ in each individual but can affect:
 - reading
 - fluency,
 - decoding,
 - reading comprehension,
 - recall,
 - writing,
 - spelling, and
 - sometimes speech and can exist along with other related disorders.
- What does this information tell us regarding our AT Action Plan? <http://ldaamerica.org/types-of-learning-disabilities/>

Moving from Information to an AT Action Plan

Visual Perceptual/Visual Motor Deficit

- A disorder that affects the understanding of information that a person sees, or the ability to draw or copy. A characteristic seen in people with learning disabilities such as Dysgraphia or Non-verbal LD, it can result in:
 - missing subtle differences in shapes or printed letters,
 - losing place frequently,
 - struggles with cutting,
 - holding pencil too tightly, or
 - poor eye/hand coordination.
- What does this information tell us regarding our AT Action Plan?

Moving from Information to an AT Action Plan

Language Processing Disorder

- A specific type of Auditory Processing Disorder (APD) in which there is **difficulty attaching meaning to sound groups that form words, sentences and stories**. While an APD affects the interpretation of all sounds coming into the brain, a Language Processing Disorder (LPD) relates only to the processing of language. LPD can affect expressive language and/or receptive language.
- What does this information tell us regarding our AT Action Plan?

Moving from Information to an AT Action Plan

Non-Verbal Learning Disabilities

- “A disorder which is usually characterized by a significant discrepancy between higher verbal skills and weaker motor, visual-spatial and social skills. Typically, an individual with NLD (or NVLD) has trouble interpreting nonverbal cues like facial expressions or body language, and may have poor coordination.”
- What does this information tell us regarding our AT Action Plan?

Moving from Information to an AT Action Plan

- What does this information tell us regarding our AT Action Plan?
- Avoid the temptation of a “cookie-cutter approach”
- Customize approach – No 2 individuals are the same. We all have different strengths and Abilities to build upon.

Building a Firm Foundation for AT Success!

Human Activity Technology (HAAT) Model

- Human: represents the skills and abilities of the person with a disability
- Activity: a set of tasks to be performed by the person with a disability
- Context: the setting or social, cultural and physical contexts that surround the environment in which the activity must be completed
- Assistive Technology: devices or strategies used to bridge the gap between the person's abilities and the demands of the environment

The SETT Framework

S = Student/Skills

E = Environment

T = Tasks

T = Tools

By Joy Zabala

STUDENT

What does the student need to be able to do that is difficult or impossible to do independently at this time?

What are the students special needs and abilities?

What are the students current abilities?

What are the functional areas of concern?

ENVIRONMENT

What activities take place in the environment?

What materials, equipment, supports, resources are available?

Where will the student participate- classroom, home, community, therapy?

What is the physical arrangement?

TASKS

What specific tasks occur in the environments which enable progress toward mastery of IEP goals and objectives?

What activities is the student expected to do?

TOOLS

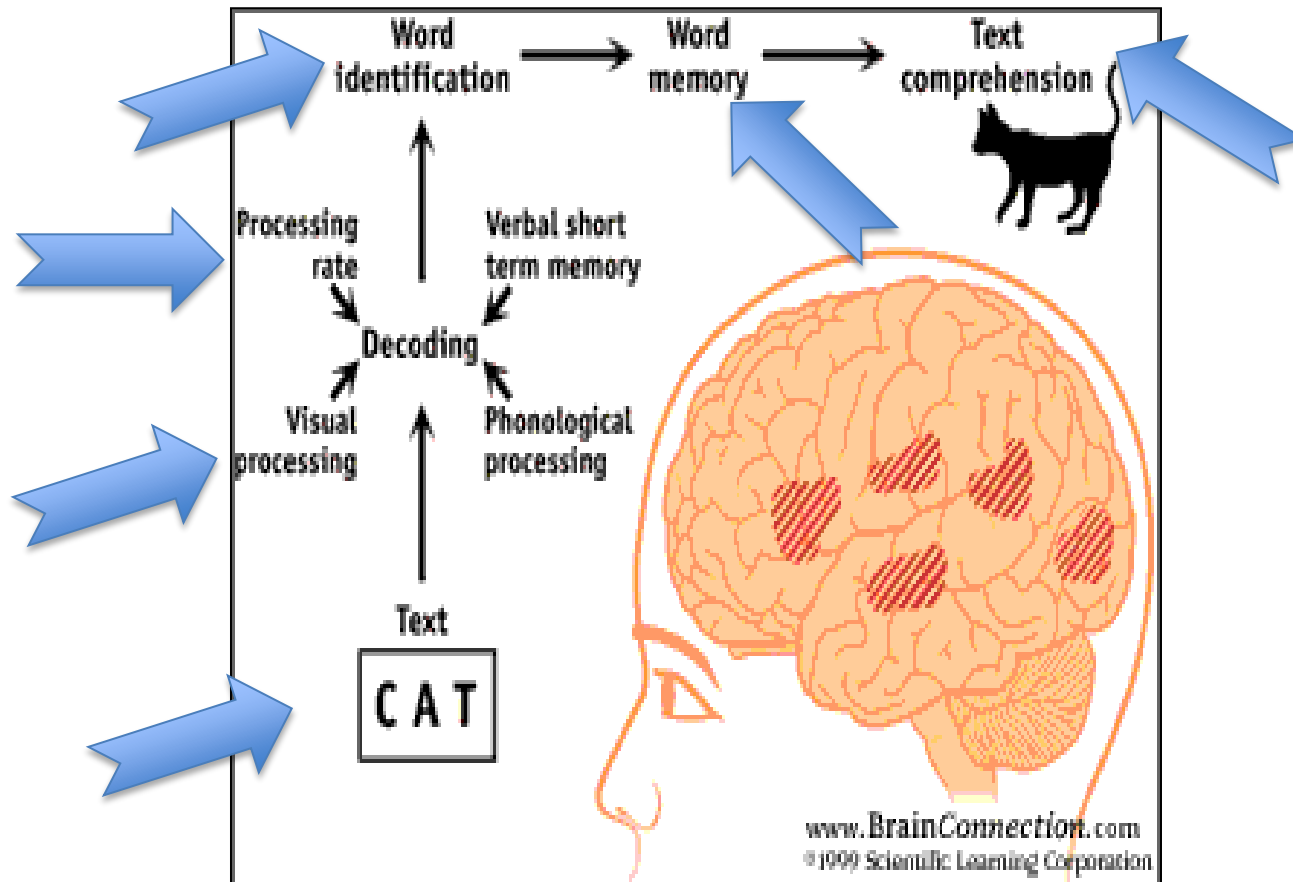

Tools are devices and services- everything that is needed to help the student succeed.

Tools are on a continuum from no/low, mid, high.

Tools must be student centered.

Describe tool features that are needed.

Rewordify.com

“Rewordify is a free website that makes English easier to read. In some ways it is similar to a thesaurus, but allows users to enter not just single words, but entire sentences, pages, and even websites, for clarification. Passages are preferred, as difficult words are 'rewordified' using the context of the sentence. For example, paste in "The tempest raged outside while the throng huddled inside.", and it is 'rewordified' into, "the storm raged outside while the crowd huddled inside.”

Students can use this tool to make passages more understandable. Simplified words are highlighted for quick comparison with the original word(s).”

The screenshot shows the Rewordify.com website. At the top, there's a navigation bar with links like 'Home', 'About', 'FAQ', 'Privacy Policy', and 'Contact Us'. Below the navigation bar, the main heading reads 'Read smarter now.' followed by a subheading 'Rewordify.com simplifies difficult English, and teaches you words quickly and effectively.' The main content area features a large yellow box for pasting text. Below this, there's a section titled 'Read better tomorrow.' with a subheading 'Learn more words faster.' and a table with two columns: 'Click, Hear, & Learn' and 'Learning Sessions'. The table contains instructions on how to use the site's features, such as clicking on highlighted words to hear their pronunciation and learn their meaning.

Read smarter now.

Rewordify.com simplifies difficult English, and teaches you words quickly and effectively. See the big yellow box near the top? That's where the learning starts. Paste in difficult sentences, paragraphs, or whole chapters full of hard words. Click *Rewordify text* and you'll instantly see an easier version, for fast understanding. The reworded words are highlighted—click them to hear and learn the original harder word.

You can also enter a website URL in the yellow box, and you'll see a simplified version of that web page. Get started fast—[do the demo](#) or watch the [site overview video](#) and be a Rewordify.com expert in less than ten minutes.

E-Readers Can Make Reading Easier for Those With Dyslexia

Sep. 18, 2013 — As e-readers grow in popularity as convenient alternatives to traditional books, researchers at the Smithsonian have found that convenience may not be their only benefit. The team discovered that when e-readers are set up to display only a few words per line, some people with dyslexia can read more easily, quickly and with greater comprehension. Their findings are published in the Sept. 18 issue of the journal *PLOS ONE*.
