# This Session is being Recorded

The screenshot shows a web browser displaying the 'Tools for Life Webinar Archives' page. The page has a sidebar with navigation links and a main content area with a table of webinar records. The table includes columns for Date, Description, Audio, Transcript/Handout, and Presentation. The records list various webinars from 2011 to 2013, covering topics like iPad use in IEPs, Social Security, Universal Design, and Assistive Technology.

Webinar Archives

- Bibliographer

The Time Machine by H.G. Wells

Chapter 1 *The Time Machine*

The Time Traveller was *expounding* an *recondite* matter to us.

↓

The Time Traveller was *explaining* an *unknown* matter to us.

Simply reading text aloud is often enough to help students comprehend. Other times, the text can be filled with complex vocabulary that is even above a student's listening comprehension level. For these situations, Snap&Read builds in text adjusting features. It automatically simplifies complex words to a level students can read passages fluently. The difficulty level is selectable so students can adjust the vocabulary complexity of their reading passages to a levels they can feel comfortable with.

TEXT COMPLEXITY

It's a great alternative to teachers using modified materials. Students access the grade-level content from the original source material, but they can adjust the complexity until they comprehend it. They can even toggle between the adjusted text and the original with a click.

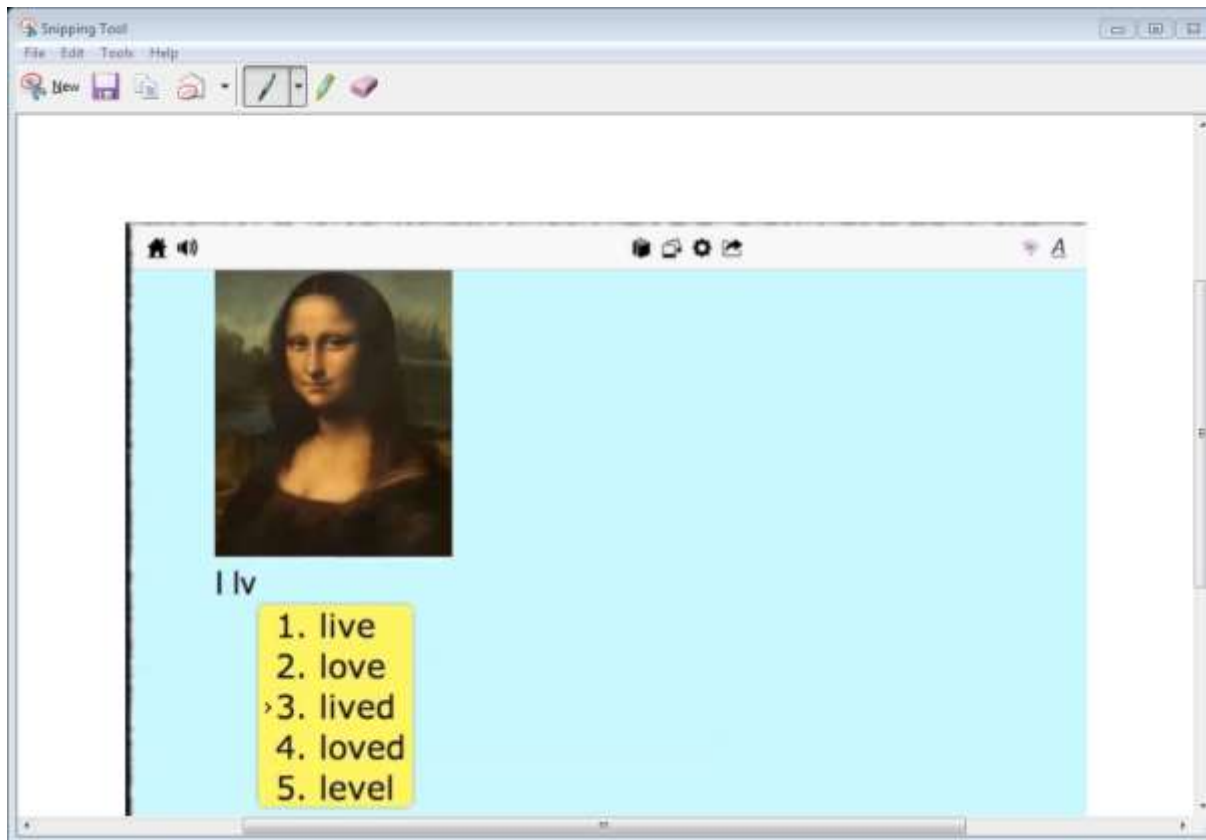

# Study Tools

- Build outlines
- Cites information
- Move information into online documents
- [DEMO VIDEO](#)
- [You Tube Channel](#)

# CoWriter Universal

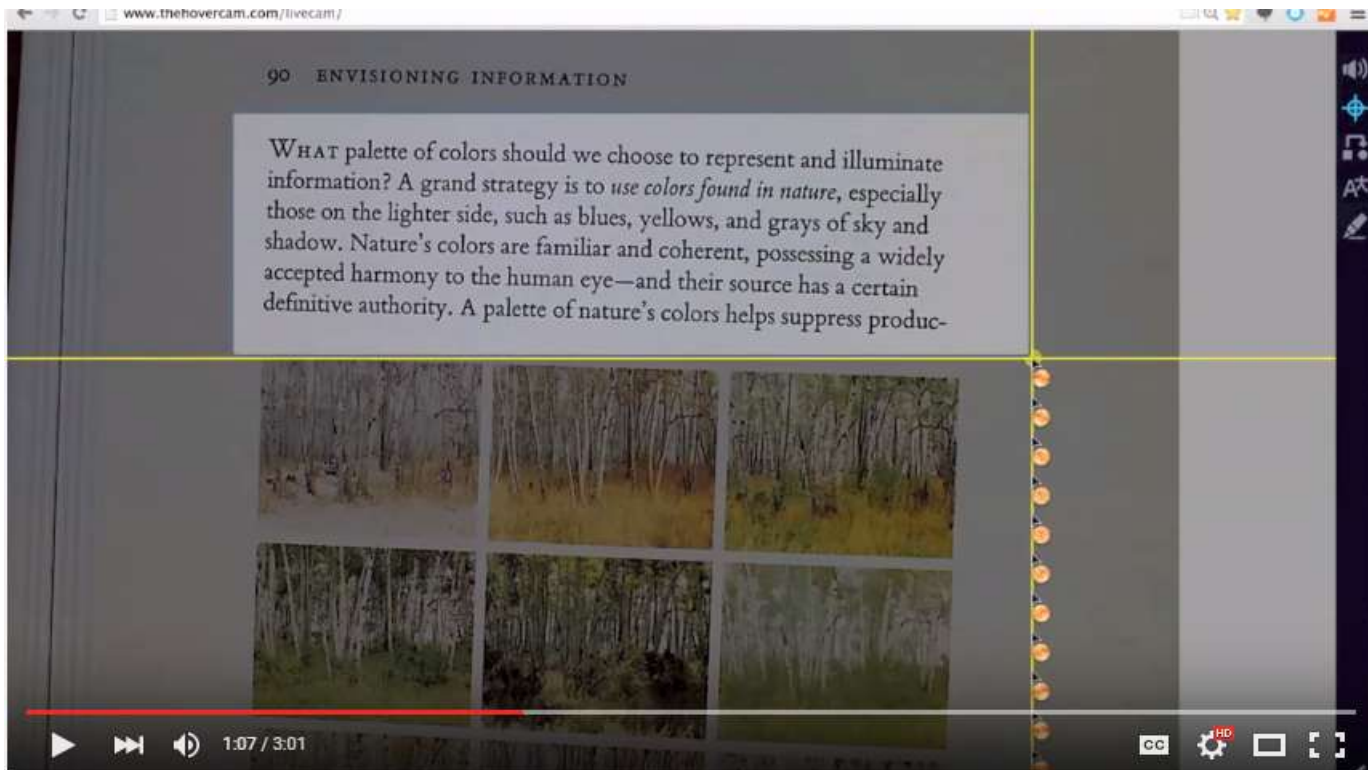

- Word prediction extension and desktop

# Read & Write for Google
