Welcome to the Assistive Technology Revolution!

The world around us is evolving at an astounding rate. Assistive Technology developments have been foundational in this evolution and a catalyst for producing positive life-changing results for individuals with disabilities.

This session will take a closer look at:

- AMAC | Tools for Life – AT Act Program
 - Advocacy & Knowing Your Rights
 - Making and LD Evaluation Your Action Plan
 - Understanding Assistive Technology
 - Using “Low/Light Tech” to inform “Mid/High Tech Solutions”
 - 5 Trends to Watch
 - where we are and perhaps, where we are going.
- ...all in 60 minutes!

AMAC

AMAC Accessibility is a social change organization on a mission to create affordable services for governmental, private and non-profits organization working with individuals with disabilities. Services include e-text, braille, captioning, assistive technology, office management software and consulting.

Accessibility Made Smart

AMAC creates practical solutions that work, with a focus on utility, ease of use, and high quality.

- **Accessibility Consulting** focuses on organizational accessibility needs with evaluation, technical assistance, customer support, and website accessibility solutions.
- **Braille Services** produces customized projects from both print materials and electronic text including partial books and chapters or graphics only using cutting-edge technology.
- **Captioning Services** makes classrooms, meetings, labs and other audio environments fully accessible for deaf or hard-of-hearing.
- **Professional E-Text Producers** provide high-quality e-text in many formats such as PDF, DOC, DAISY, and HTML.
- **Certified Assistive Technology team** provides on-site and remote assessments, demonstrations, training and technical assistance for education, work, and daily living environments.

Welcome to Tools for Life

Tools for Life, Georgia's Assistive Technology Act Program, is dedicated to increasing access to and acquisition of assistive technology (AT) devices and services for Georgians of all ages and disabilities so they can live, learn, work and play independently and with greater freedom in communities of their choice.

Tools for Life and the TFL Network work collaboratively together to accomplish our mission through:

Why Assistive Technology?

- For a person without a disability, technology makes things easier....
- For a person with a disability, technology makes things possible.
- **TIP: USE AT. I have yet to meet a successful student with disabilities who doesn't use Any AT.**

What is an AT Service?

Assistive Technology Services

Any service that **directly assists an individual with a disability** in the selection, acquisition, or use of an assistive technology device.

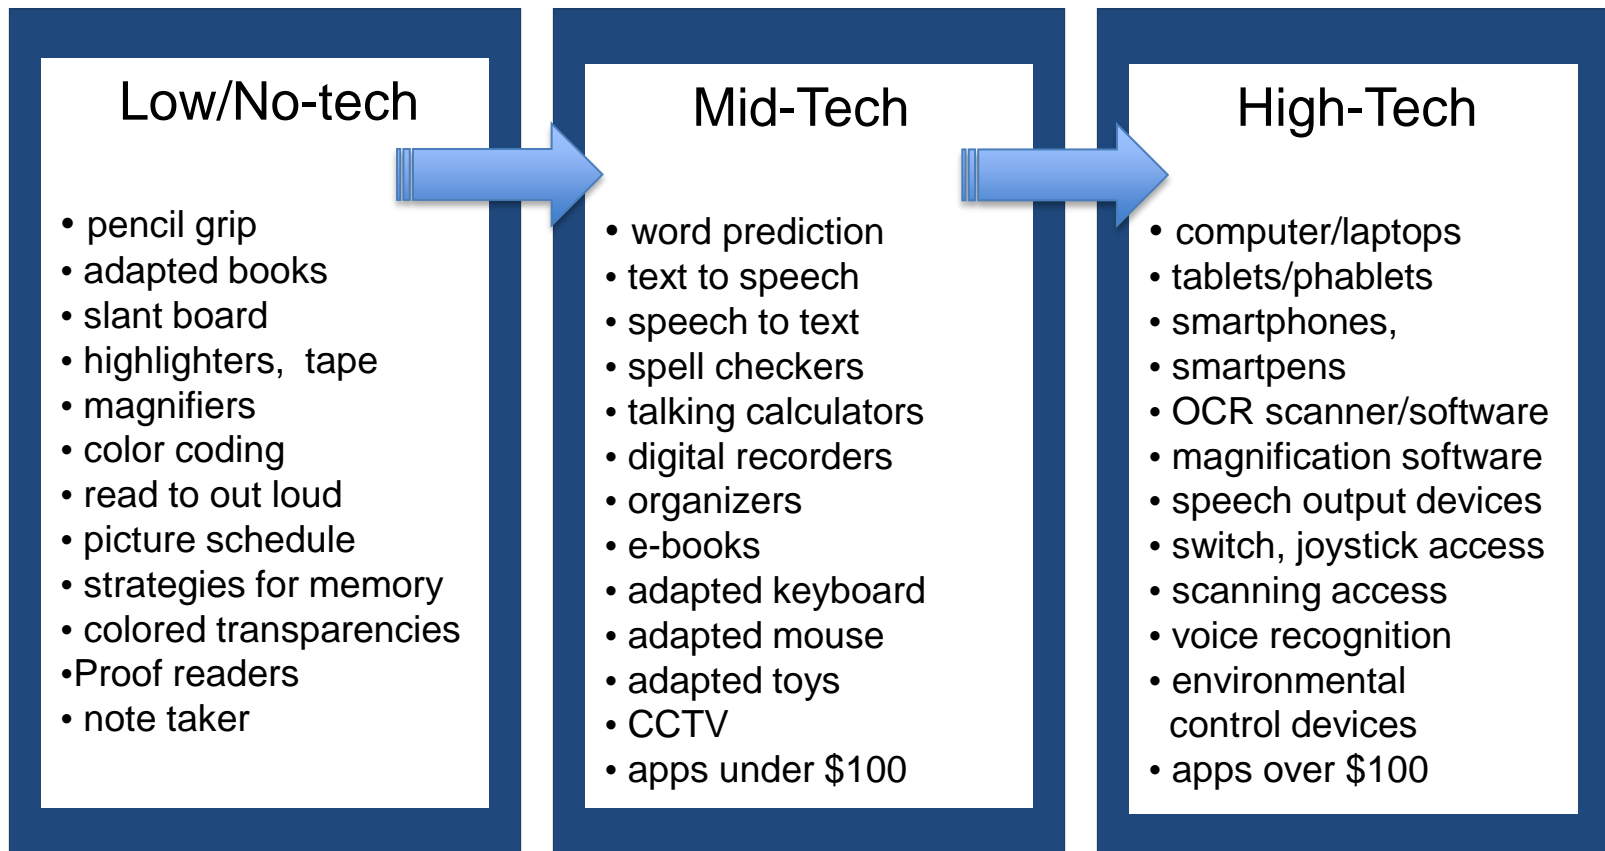

Includes:

- Evaluating
- Providing devices
- Selecting, Designing, Customizing
- Maintaining, Repairing
- Coordinating
- Training/Technical Assistance –student, family and school service providers

- Public Law 105-394 [29 USC 2201]

Observations & “Hanging out with Intent”

Assistive Technology is a **continuum of tools, strategies, and services** that match a person’s needs, abilities and tasks.

Moving from Information to Action

Evaluations for Learning Disabilities

- ☐ One to one assessment
- ☐ Comprehensive battery of tests
- ☐ Detailed report with recommendations for support in work and/or learning
- What did You learn in your LD Evaluation?
- Moving from Information to Action
 - Using your Evaluation results as an Action Plan for AT

Moving from Information to an AT Action Plan

Auditory Processing Disorder (APD)

- “Also known as Central Auditory Processing Disorder, this is a condition that adversely affects how sound that travels unimpeded through the ear is processed or interpreted by the brain. Individuals with **APD do not recognize subtle differences between sounds in words, even when the sounds are loud and clear enough to be heard.** They can also find it difficult to tell where sounds are coming from, to make sense of the order of sounds, or to block out competing background noises.”
- What does this information tell us regarding our AT Action Plan?

Moving from Information to an AT Action Plan

Dyscalculia

- “A specific learning disability that affects a person’s ability to understand numbers and learn math facts.
- Individuals with this type of LD may also have:
 - poor comprehension of math symbols,
 - may struggle with memorizing and organizing numbers,
 - have difficulty telling time, or
 - have trouble with counting.”
- What does this information tell us regarding our AT Action Plan?

Moving from Information to an AT Action Plan

Dysgraphia

- “A specific learning disability that affects a person’s handwriting ability and fine motor skills.
- Problems may include illegible:
 - handwriting,
 - inconsistent spacing,
 - poor spatial planning on paper,
 - poor spelling, and
 - difficulty composing writing as well as thinking and writing at the same time.”
- What does this information tell us regarding our AT Action Plan?
<http://ldaamerica.org/types-of-learning-disabilities/>

Moving from Information to an AT Action Plan

Dyslexia

- A specific learning disability that affects reading and related language-based processing skills. Dyslexia is sometimes referred to as a Language-Based Learning Disability.
- The severity can differ in each individual but can affect:
 - reading
 - fluency,
 - decoding,
 - reading comprehension,
 - recall,
 - writing,
 - spelling, and
 - sometimes speech and can exist along with other related disorders.
- What does this information tell us regarding our AT Action Plan? <http://ldaamerica.org/types-of-learning-disabilities/>

Moving from Information to an AT Action Plan

Visual Perceptual/Visual Motor Deficit

- A disorder that affects the understanding of information that a person sees, or the ability to draw or copy. A characteristic seen in people with learning disabilities such as Dysgraphia or Non-verbal LD, it can result in:
 - missing subtle differences in shapes or printed letters,
 - losing place frequently,
 - struggles with cutting,
 - holding pencil too tightly, or
 - poor eye/hand coordination.
- What does this information tell us regarding our AT Action Plan?

Moving from Information to an AT Action Plan

- What does this information tell us regarding our AT Action Plan?
- Avoid the temptation of a “cookie-cutter approach”
- Customize approach – No 2 individuals are the same. We all have different strengths and Abilities to build upon.

The “FAST” Track

- **Frustration**
- **Anxiety**
- **Stress**
- **Tension**

Human Activity Technology (HAAT) Model

- Human: represents the skills and abilities of the person with a disability
- Activity: a set of tasks to be performed by the person with a disability
- Context: the setting or social, cultural and physical contexts that surround the environment in which the activity must be completed
- Assistive Technology: devices or strategies used to bridge the gap between the person's abilities and the demands of the environment

Ergonomics

- Inhibits blood flow
- Creates muscle shortening
- Stresses back muscles and compresses spine
- Can inhibit learning
- Compresses diaphragm
 - Affects breathing
 - Voice quality

Rewordify.com

“Rewordify is a free website that makes English easier to read. In some ways it is similar to a thesaurus, but allows users to enter not just single words, but entire sentences, pages, and even websites, for clarification. Passages are preferred, as difficult words are 'rewordified' using the context of the sentence. For example, paste in "The tempest raged outside while the throng huddled inside.", and it is 'rewordified' into, "the storm raged outside while the crowd huddled inside.”

Students can use this tool to make passages more understandable. Simplified words are highlighted for quick comparison with the original word(s).”

The screenshot shows the Rewordify.com website. At the top, there's a navigation bar with links for 'Home', 'About', 'FAQ', 'Privacy Policy', and 'Contact Us'. Below this, a large heading reads 'Read smarter now.' followed by a subheading 'Read better tomorrow.' The main content area is divided into two sections. The first section, 'Read smarter now.', describes how the tool simplifies difficult English and teaches words quickly and effectively. It includes a table comparing 'From frustration...' (Hearken! Anon thou shalt read tomes with more rapidity!) to '...to understanding' (Listen! Soon you will read huge books with more speed!). The second section, 'Read better tomorrow.', describes how the tool helps learn more words faster by providing simplified versions of text. It includes a table comparing 'Click, Hear, & Learn' (On any highlighted word, click (or finger-tap) to) to 'Learning Sessions' (Learn words step by step—the site keeps). At the bottom, there are links for 'Top' and 'Settings'.

Read smarter now.

Rewordify.com simplifies difficult English, and teaches you words quickly and effectively. See the big yellow box near the top? That's where the learning starts. Paste in difficult sentences, paragraphs, or whole chapters full of hard words. Click *Rewordify text* and you'll instantly see an easier version, for fast understanding. The reworded words are highlighted—click them to hear and learn the original harder word.

- Runs Android Wear, Google's operating system for smartwatches.

Moto 360 by Motorola

- Classroom Applications:
 - Todoist for Android Wear allows me to quickly view my homework assignments and check them off as I complete them.
 - Evernote for Android Wear allows me to study my notes on the go.

Moto 360 by Motorola

- Transition Applications:
 - Tockle for Android Wear allows me to send preset text messages to my caretaker to let them know that I need assistance.
 - Through applications such as Wink and Hue Control for Android Wear, I can control certain aspects of my smart home appliances from my watch. However, these applications are not full solutions for controlling all of my smart home appliances from my watch.

Mobile Payment Applications

- Looking forward towards my transition to college, I realized that I would need a way to easily pay for things at stores without having to handle physical money or credit cards.
- I began researching mobile payment applications that utilize Near Field Communication (NFC) technology.
- NFC technology allows users to pay for things by simply typing in a PIN number or scanning their fingerprint and holding the back of their phone up to a credit card terminal that accepts NFC.

Mobile Payment Applications

- Examples of these applications include:
 - Google Wallet (for Android, will be replaced by Android Pay soon)
 - Apple Pay (for iPhone 6, iPhone 6 Plus, & Apple Watch)
- Paying with NFC is A LOT more secure than paying with a normal credit card.
- In the future, I hope to see more stores accept NFC as a payment method and to see NFC technology included in more wearable devices.

T. Jacket

- Wearable technology vest
 - Provides customizable deep touch pressure
 - Uses adjustable air pressure compression controlled via smartphone app
