

# WE CAN HELP YOU ADDRESS YOUR ACCESSIBILITY NEEDS

## New Name. Same Great Service.

We are inclusive and innovative and now our name better reflects who we are! We are now the Center for Inclusive Design & Innovation (formerly AMAC Accessibility). As the Center for Inclusive Design & Innovation (CIDI), we are expanding our education initiatives and research. We will continue to provide high quality, accessible, and inclusive products, services, and resources for individuals with disabilities in education, government, non-profit, and corporate environments.

- Assistive Technology Evaluations
- AT Demonstration
- AT Acquisition
- AT Individual & Group Training
- AT Funding Options & Education
- Electronic Document Accessibility

# HIGH QUALITY, LOW COST SOLUTIONS

Using a produce-once, use-many approach, we create textbooks, journals, brochures, and business operating manuals in an array of accessible media formats. Our repository of more than 37,000 files has a 30% stock reuse rate of previously converted materials, saving you time and money.

Our captionists strive for 100% accuracy and offer a human touch to deliver solutions that make audio and visual environments and multimedia fully accessible through live, remote captioning, video captioning, audio description, and accessible transcripts.

Working with cutting-edge technology, our Library of Congress-certified Braille Services team are able to produce custom, timely braille transcription projects, converting STEM content into braille and tactile graphics.

## EDUCATION AND GOVERNMENT INITIATIVES

### Access GA

As a joint initiative of the State of Georgia ADA Coordinator's Office, Center for Inclusive Design & Innovation, and the Georgia Technology Authority (GTA), AccessGA supports Georgia's more than 75 state agencies with ICT accessibility and promotes equal and timely access for employees and customers with a wide range of disabilities. In August of 2016, Georgia Technology Authority, through its partnership with AccessGA, was recognized by GA's Governor Nathan Deal for its statewide impact, including the launch of 13 accessible website templates used throughout the state. In 2018, Georgia's State Government websites ranked 2nd best in the nation in accessibility.

### WAG, Web Accessibility Group

An initiative that brings together individuals in higher education seeking to navigate the complex Section 508 standards and Web Content Accessibility Guidelines (WCAG) 2.0/2.1 to advance user experience design and enhance user satisfaction by improving the usability and accessibility of college and university websites and applications.

### AccessText Network

90,000 requests for publisher files per year. Requests are placed from over 2,900 post-secondary Disability Services Offices. AccessText now includes 43 member-publishers. Publishers have stored over 50,000 files for automatic fulfillment of 61% of annual requests.

### Student Accommodation Manager

A secure, web-based database application that helps postsecondary Disability Service offices manage student accommodation and disability data, case notes, and much more.

### Tools for Life, Georgia's Assistive Technology Act Program

We assess the needs of individuals of all ages and disabilities. Through our extensive AT Solutions Lab and Network, our AT professionals identify appropriate solutions to make it easier for individuals to acquire the assistive technology they need to live, learn, work, and play in the communities of their choice.

### Credit-Able Loan Program: Making Independence Affordable for Georgians with Disabilities

Credit-Able is Georgia's alternative financing program for assistive technology. This program is a collaborative effort between Tools for Life and the Center for Financial Independence and Innovation. Credit-Able offers loans for assistive technology that benefits Georgians with disabilities.
